Description

Enjoy the timeless design of a stainless steel Copper Tapware

Kitchens are a popular place to install stainless steel copper kitchen tap because of its unique look and durability. With its crisp, clean lines, the RH-350-VI brushed copper tapware is sure to catch your eye. The brushed finish sets these copper taps apart from other kitchen appliances.

In addition, this stainless steel copper tap is uniquely resistant to corrosion and wear, making the copper mixer tap from Nivito an ideal option for kitchen sink areas.
