Description

The Copper Kitchen Tap is the best possible accessory for your kitchen

Because of its effortless nature, copper kitchen tap is a common fixture in many contemporary kitchens nowadays. Nivito is proud to present the RH-350 copper tapware, which is part of their collection. This fashionable copper tap mixer has a brushed finish that is likely to suit any design that you choose to put it in. In addition, this copper tap mixer is made of stainless steel, which takes very little maintenance and may keep its gleaming appearance for many years to come.

If you want a tap for your kitchen that is of high quality and does not require much maintenance, the brushed copper tapware is a fantastic option to consider.
