Description

The Stainless Steel Mixer Tap has a sophisticated design

This single hole stainless steel kitchen mixer tap will instantly improve the look of your modern bathroom. The RH-50 mixer tap has a simple, minimalistic design, a highly reflective stainless steel finish, and a water-saving one-handle lever. With one hand, control water flow and adjust water temperature with the multifunctional bathroom mixer tap with a single handle lever. The mixer tap basin is made of corrosion-resistant, rust-resistant, and wear-resistant superior stainless steel.

Your one-time investment in a superior bathroom tap will eliminate the hassle of repairing and replacing worn-out tap for the rest of your life. We're very confident that this stainless steel mixer tap will make your life peaceful and less stressful.
