Description

Vintage Tapware in stainless steel with a porcelain handle

It's impossible to go out of style with our traditional tapware's simple but elegant design. These vintage taps

are a long-lasting choice thanks to their strong stainless steel design and gracefully curved spout. A 360-degree swivel motion enables this to be used with a double sink without sacrificing time or efficiency. The traditional kitchen taps have a porcelain handle that makes them simple to adjust between hot and cold water, so you can be sure to obtain the temperature you need.

For a touch of vintage elegance in your kitchen, install the vintage kitchen taps. This vintage kitchen tap combines aesthetic, helpful utility, and long-term usage.
